Sanitaryware Features

There are many features in our sanitaryware range. Use the icons to help choose the right option for you.

Rimless
Rimless flushing, hygienic and easy to clean.

Comfort Height
The comfort height option sits several centimetres taller than standard WCs.

Short Projection
Space saving short projection pans, ideal for small washrooms.

Right Hand Flush
Ergonomically positioned cistern handle for convenient flushing.

Air Gap
Provides an air space between your tank's water level and your municipal refill line to ensure that cross contamination and back-siphonage is impossible.

Full Flush Volume
The total volume of water discharged from the flushing system during a flush cycle.

Dual Flush Volume
The dual flush allows you to save water while providing you with the flexibility to choose between a water saving 4 litre flush or a standard 6 litre flush.

Eco Dual Flush Volume
A more effective water saving flush volume. The dual flush allows you to choose between a water saving 2.6 litre flush or a standard 4 litre flush.

Quick Release
Easy to operate quick release hinges allow the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces.

Top Fix Hinges
Some seats feature a special 'top fix' hinge allowing them to be quickly and easily installed on modern WC pans.

Soft Close
The hydraulic hinge mechanism ensures controlled and quiet closure of the seat lid and ring.

Comfort Height Pan. Short Projection Pan. What's the difference?

Comfort Height Pans

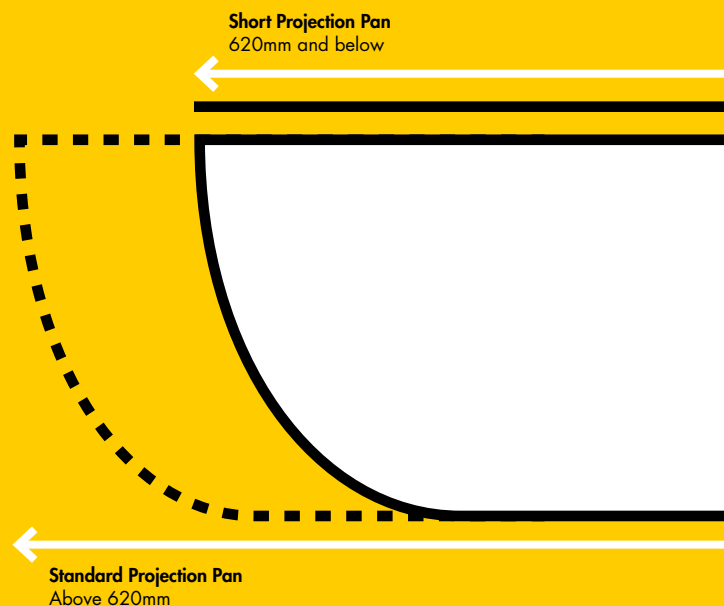

Comfort height pans are designed to ensure that the bowl and seat height is such that they make for comfortable use. Typically comfort height pans are 450mm and above (standard height pans are approximately 400mm in height) and can be particularly useful for the elderly and people with mobility issues.

Short Projection Pans

A short projection pan means that it has a shorter depth than standard, and therefore does not protrude as far, taking up less floor space. Typical short projection pans are 620mm* and below (standard projection pans are typically above 620mm). A short projection pan is ideal for a small bathroom or cloakroom suite.

**620mm is relevant to Close Coupled suites. Below 500mm is considered short projection for Back to Wall and Wall Hung Pans.*

Please look out for the comfort height and short projection icons in the following sanitaryware pages. Alternatively, use the range selector on page 35 and discover which of our Instinct Sanitaryware have comfort height and short projection pan options.

Flushing Features

There are many features in our flushing range. Use the icons to help choose the right option for you.

Guarantees

All WC frames, concealed cisterns, flush plates, flush buttons and contactless flushing products come with a five year guarantee. The compact concealed cistern comes with a one year guarantee.

Back to Wall Pans

Can be used for back to wall pans.

Wall Hung Pans

Allows wall hung pans to be used.

Wall Hung Bidets

Can be used for wall hung bidets.

Air Gap

WRAS approved Air Gap inlet valve included.

Dual Flush Volume

The Dual Flush allows you to save water while providing you with the flexibility to choose between a water saving 3 litre flush or a standard 6 litre flush.

Easy Install

Our concealed cisterns and WC frames are designed for easy maintenance and installation.

Insulation

The Instinct concealed cistern jackets are fully insulated.

Contactless Controls

Infrared switch allows control with the wave of your hand.

Contactless Flushing

Guarantees
wirquin **10** Years
 on Contactless Flushing

Touchless – The most hygienic way to flush

The Touchless operates without contact thanks to its infrared sensor which detects the slightest movement. Touchless is the 100% hygienic solution and guarantees effective protection against germs, bacteria and viruses.

- new
- Hygienic Flushing
- Water Saving
- Quick To Install

Scan for Installation video

Touchless Flush Valve

Suitable for 1.5" and 2" outlets, close coupled and low-level ceramic cisterns. Thanks to its motion activated infrared mechanism, any contact with the flush button can be avoided, making the Touchless a great hygienic option. The user can control the volume of water being used to flush with a quick hand wave activating half a flush, and a hand held over the button for 4 seconds activating a full 6L flush. In the rare occasion of battery failure, a manual override is available. The cable operated button allows for easy installation and can easily be adjusted to the height of the cistern.

- Power Source – Battery operated (4 AA alkaline batteries) with a manual override should batteries fail
- Durability – Tested to 200,000 flush cycles which is equivalent to over 35 years of use for a family of 4.
- Water Saving – Eco-stop flushing technology allows the user to control the amount of water required to flush the toilet.
- Compatibility – Suitable for use with cistern heights from 300-420mm. Supplied with a sensor with variable diameter from 38-45mm to suit most installations.
- Maintenance – Easy to install and maintain
- Dimensions – 320-420(h) mm

Touchless + Jollyfill Air Telescopic Universal Flushing Kit

This Wirquin universal fittings kit is suitable for almost all bottom entry close coupled cisterns. Touchless cable operated flush valve is suitable for both 1.5" and 2" cistern outlets. Jollyfill Air telescopic inlet valve is adjustable in height to fit any height of cistern.

- Power Source – Battery operated (4 AA alkaline batteries).
- Durability – Tested to 200,000 flush cycles which is equivalent to over 35 years of use for a family of 4.
- Hygienic Flushing – The WRAS/KIWA approved Touchless valve allows the user to control the volume of water being used to flush with a quick hand wave activating a half flush, and a hand held over the button for 4 seconds activating a full 6L flush.
- Compatibility – Suitable for use with cistern heights from 300-420mm. Supplied with a sensor with variable diameter from 38-45mm to suit most installations.
- Maintenance – Easy to install and maintain.
- Water Saving Inlet Valve Accreditation – KIWA Approved, BS 1212-4 Compliant, WRAS Approved
- Dimensions – 320-420(h) mm

Bath + Bath Screens Features

There are many features in our bath + bath screens range. Use the icons to help choose the right option for you.

Water Capacity
Total number of Litres the bath can hold safely.

Glass Thickness
All our bath screens feature toughened safety glass. Safety glass is around five times stronger than normal glass.

Reversible
The bath screen is reversible for left or right hand applications.

Rotates Through 180°
All or part of the bath screen rotates through 180° for easier access.

Easy Clean Glass
Designed and manufactured to present easy cleaning ability to ensure your bath screen lasts for many years.

Bracing Bar
Bracing bars are used to support and strengthen bath screen glass against movements.

Bathroom Taps + Accessories Features

There are many features in our bathroom taps and accessories range. Use the icons to help choose the right option for you.

Guarantee
Bathroom taps come with guarantee as shown on top of page.

Minimum Operating Pressure
Suitable for a system with low water pressure.

Maximum Operating Pressure
Suitable for a system with high water pressure.

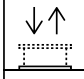

System Pressure
Recommended minimum system pressure. Low Pressure at 0.1–0.3 Bar, Medium Pressure at 0.5 Bar, High Pressure at 1.0+ Bar.

Single Flow
This single tap style mixes hot and cold water in the body of the tap.

Flexible Hose
Supplied with flexible hose for easy installation

Waste
Supplied with a click waste or pop up waste.

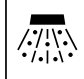

Shower Kit
Bath shower mixer supplied with a handy separate side shower.

Flow Restrictor
A device that regulates the flow rate of water through an outlet.

Flow Straightener
Supplied with flow straightener outlet option.

Flow Aerator
Supplied with water saving aerator outlet. This water saving device will control the amount of water that flows through the tap as it mixes water with air.

Backnut
Supplied with either a brass, plastic or metal backnut.

Flow Rate
Flow rate shown is based on testing conducted against published minimum pressure.

Compact Design

Time Saving

Nano 6.7 Basin Waste + Trap

Nano 6.7 is a revolutionary basin waste and trap in one, equipped with Smart Membrane Technology.

Ultra Compact – Nano is 3 times more compact than a standard trap for maximum space under your basin.

No Smells – The cartridge is equipped with a silicone membrane which opens when water passes and closes automatically afterwards. Its external bi-injected washer guarantees a perfect seal, no more bad smells, no more pipe noises, no more back-siphoning.

Easy To Clean – The membrane cartridge and plug are removable from above for quick and easy cleaning. It also allows for direct access to the pipework in the case of any blockages.

360° Swivel and +/-4 Tilt – Compensates for alignment faults and reduces pressure on the pipes.

Compatibility – Suitable For Slotted And Unslotted Basins, Supplied unslotted, the waste can be uncapped for use with basins with a built-in overflow.

Finish – Chrome or Black Waste Material – ABS
Dimensions – 110(h) x 80(w) x 115(d) mm

30724233	Chrome	£33.00
30724237	Black	£36.00

Bath Waste

Elton Cable Bath Waste (Pop Up Waste + Overflow)

The Elton bath waste is a high quality cable bath waste with stylish plug and overflow finishes to give a modern finish to any bathroom.

Easy Set Up – The unique auto-centering washer holds the waste in position under the bath when the grid is being screwed on.

Space Saving Trap – Only 108mm under bath, high flow rate 63 L/mn.

Overflow – cable opening-closing system with 90° rotation.

Finish – Chrome
Waste Material – Plastic
Bath Trap Height – 108mm
Bath Overflow Length – 700mm

Shower Waste

new

Ultra Compact

Slim+ Shower Waste

SLIM+ is an extra flat shower waste with Smart Membrane Technology. Quick and easy to install in all configurations, extra reliable without any risk of leaks and easy to clean, SLIM+ is guaranteed to meet all the installers and end users expectations.

Extra Compact – Quick to install with shallow depth. Thanks to its small footprint is ideal for low profile shower trays.

Anti-Odour – No more bad smells, cartridge with silicone membrane, a perfect barrier against bad smells.

No Leaks – Bi-injected washer under the tray for a reliable installation guaranteed 100% leak-proof.

Easy Cleaning From Above – Independent hair catcher to adapt to the frequency of everyone's cleaning habits. Removable cartridge for deeper cleaning and direct access to the pipework.

Finish – Chrome or Black
Waste Material – ABS
Dimensions – 79(h) x 118(w) x 187(d) mm

Basin Trap

Neo Air Basin Trap

Safe and quick to install, Neo is designed to satisfy the installers and end users needs. Reliable thanks to overmoulded washers and quick to install thanks to the quick safe function.

Guaranteed Zero Leaks – Bi-injection technology means that there can be no loss of washers as the washers are always in place for total protection against leaks!

No Noise Or Smells – The air system function replaces a traditional ventapipe air admittance valve and protects against noise and bad smells.

Quick To Install – the captive ¼ turn nut guarantees a fast and reliable solution.

Easy To Clean – Base is easy to remove with a simple ¼ turn.

Height Adjustable – Up to 60mm adjustment for ease of installation with existing pipework.

Finish – White and Red

Waste Material – Plastic

Shower Enclosure + Shower Seat Features

There are many features in our shower enclosure and shower seat range. Use the icons to help choose the right option for you.

Lifetime Guarantees
Instinct 6 shower enclosures all come with a lifetime guarantee.

Glass Thickness
All our shower enclosures feature toughened safety glass. Safety glass is around five times stronger than normal glass.

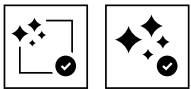

Reversible
The shower enclosure is reversible for left or right hand applications.

Magnetic Door Strips
Magnetic seals provide a water tight seal on shower enclosure doors. These seals have sufficient magnetic strength that latches are not required.

Easy Install
Shower enclosures designed for a quick and easy installation.

Easy Clean Glass / Seats
Designed and manufactured to present easy cleaning ability to ensure your shower enclosure or shower seat lasts for many years.

Weight Limit
Shower seats are designed to safely hold a maximum weight limit.

INSTINCT® | PRO

Anti Slip

Take the safe option

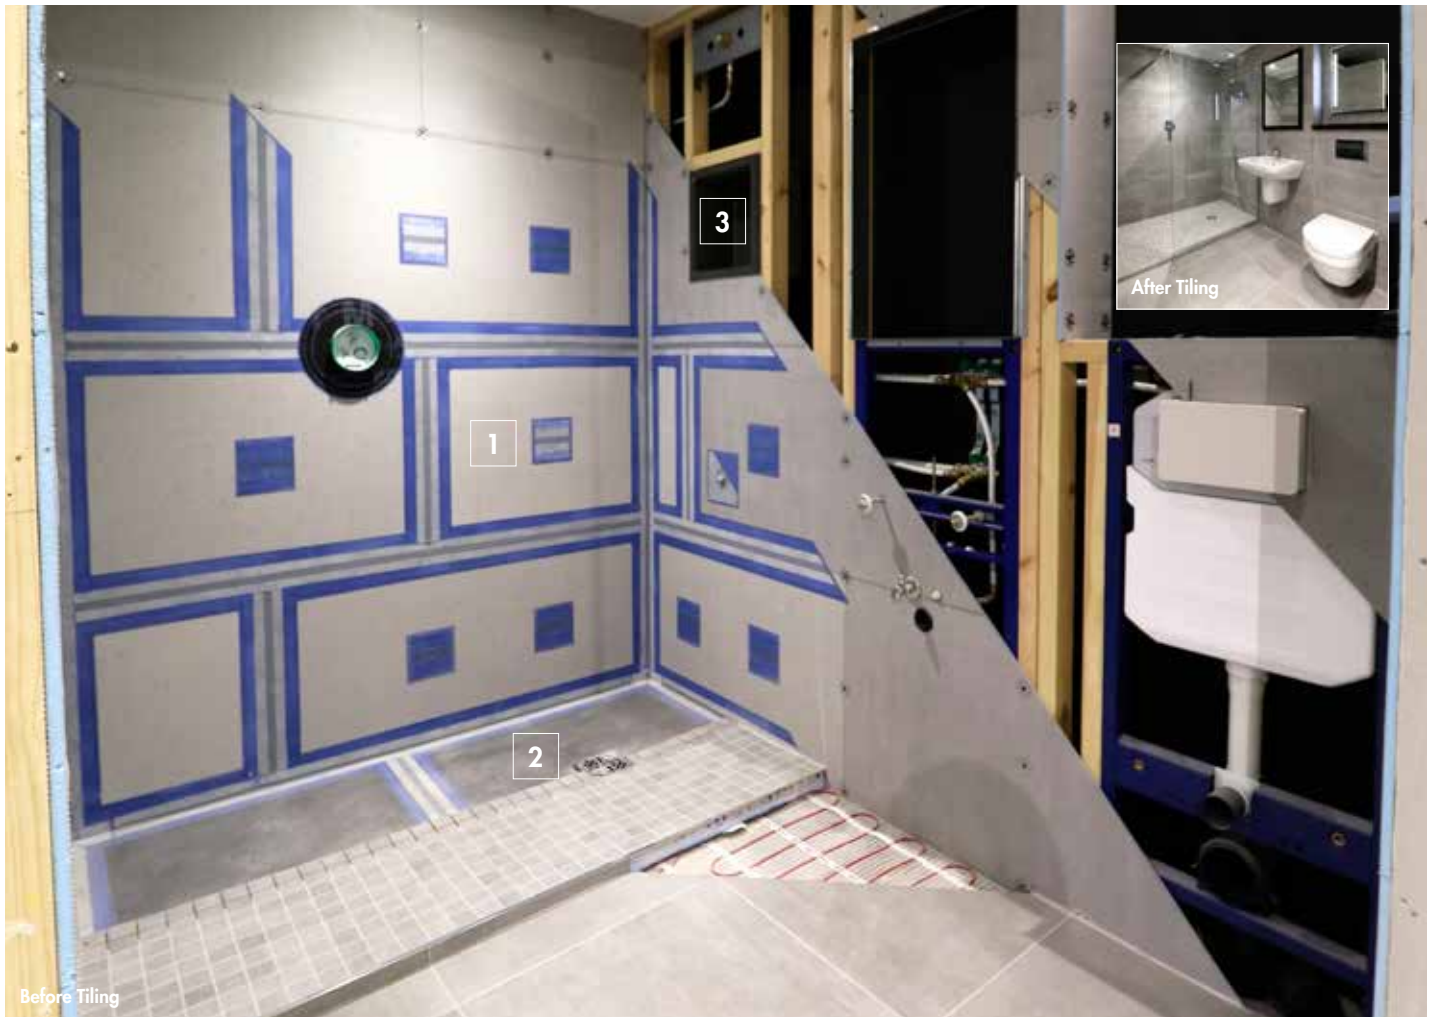

Integrated into the skin of the shower tray, the non slip surface delivers a confident and sturdy showering experience under foot. The Anti Slip is independently approved to the highest rating of domestic use (Class C) to ensure the highest level of confidence and safety.

Integrated in the shower tray to aid the prevention of slips and falls

Class C slip rating - the highest level of approval for domestic use

Conforms to BS EN 16165:2021 – Annex C

Complete with 10 year guarantee

Ultimate build quality 'behind the tiles'

Build your bathroom + wetroom in 3 simple steps

We've made it as simple as possible to achieve your perfect wetroom. With a comprehensive range of shower trays and complementary shower screens plus a selection of tile backer boards for wall and floor, you can create an aspirational space that combines cutting-edge design with industry-leading waterproofing properties.

1 Waterproof your bathroom behind the tiles

We recommend using our Tile Backer Boards and Waterproofing Components for a fully waterproof installation on the walls and floors.

2 Create beautiful wetrooms

Designed and manufactured in the UK specifically for the UK market, Elements wetroom shower kits are the ultimate way to create the perfect secure wetroom.

Whether your requirement is fully level access or raised wetrooms we can accommodate your needs.

Supplied with full installation kit and high capacity drain.

3 Design waterproof recessed shower storage

Designed for pre-wall installation to make excellent use of space otherwise lost. Manufactured from the same high grade material used to produce our waterproofing building product range, our selection of recessed storage is fully waterproof and ready for installation.

Tile Backer Boards

Ideal product to waterproof and insulate in one operation prior to tiling makes your bathroom last longer, thus making your bathroom an investment. Also reduces mould, making it a much healthier option for any tiling project.

Boards can be ordered singularly.

Raised Wetroom Kits

Square Drain

130mm

The Concept 1 + 4 is designed for use where the customer cannot or chooses not to site the drain within the floor. This system is also suitable where longer runs are required for drainage pipework not achievable within the floor, up to 1.5m from the waste to the soil pipe. This typically will be used for apartment buildings or awkward joist locations on timber floors.

Dimensions –

130(h) x 1850(w) x 900(d) mm (PHGWR-KS15-1809)

130(h) x 1850(w) x 750(d) mm (PHGWR-KS15-1807)

30 Years on Multipanel Wall Panels

About Grant Westfield – The UK's Best Selling Bathroom Wall Panels

Create beautiful spaces with our waterproof bathroom wall panels, the luxurious and modern way to decorate your bathroom. Our beautiful wall panel collections come in a range of sizes and finishes, including marble, stone and wood, offering you a range of design possibilities, allowing you to reinvent your bathroom in a style that is uniquely yours.

Our unique Hydrolock installation system makes it possible to join panels from our Tile, Pure, Linda Barker, Contemporary and Classic Collections together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for grout, meaning less time cleaning grout lines and mould. Panels in our Multipanel Classic Collection are also Forest Stewardship Council® (FSC® C128180) and Made In Britain certified, meaning that they are made in the UK of material from well-managed, FSC®-certified forests and other controlled sources.

Tiles, its time to move on.

Hydrolock®

Multipanel panels are available with Hydrolock® tongue and grooved edge for easy click-into-place installation.

Hydrolock Installation

To ensure our panels can be installed to show off their true potential, we created Hydrolock, a unique solution which makes it possible to join panels from our collections (Naturepanel, Tile, Pure, Linda Barker and Contemporary) together to create an almost seamless expanse of waterproof wall. Precisely engineered, our Hydrolock edge creates a discreet watertight joint, without the need for profiles and can even be installed on uneven walls. Hydrolock panels are available in a range of widths for ease of installation – 2400 x 598 mm, 2400 x 900 mm, 2400 x 1200 mm.

The Hydrolock joint reduces the finished face by 20mm i.e. 2400mm x 1200mm becomes 2400 x 1180mm. Straight edge panels are also available.

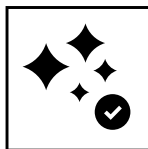

Hydrolock® Joint

Scan the QR code and watch a video to learn more about Hydrolock installation and its benefits.

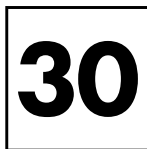

Why Choose Grant Westfield

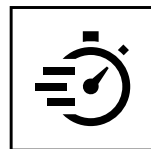

Easy to keep clean

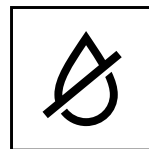

Almost seamless joint with Hydrolock®

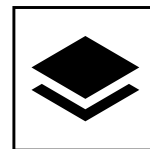

30 year warranty

Quick and easy to install

Fully waterproof

Can be installed over old tiles

Multipanel Profiles

on Perform Panel Wall Panels

Cloudy Marble, The Origins Collection

About Perform Panel – Today's alternative to tiles

With easy installation, no grouting and a unique high-performance fitting system, Perform Panel is the beautiful, efficient, modern alternative to tiles. Available in a large selection of stylish designs across our core ranges. Perform Panel works with any interior scheme. Made in the UK by a family firm trusted by the building industry for 160 years.

Nu-Lock Joint

Nu-Lock

Manufactured using 7-ply birch plywood, with a "click" tongue and groove finish as standard, creating a seamless joint and look to each panel.

Perform Panel Trims

Seal and finish wall panel edges and joints with a range of trims, available in a variety of finishes including satin anodised aluminium, white, chrome, black, brushed black, and brushed brass.

25 Years on Fibo Wall Panels

About Us

Designed and manufactured in Norway - the home of wood technology and contemporary Scandinavian styling – Fibo is the leading supplier of tile-effect wall panels. Starting out quite modestly in 1952 with a small factory, today we operate a multi-million pound award-winning factory producing panels for over 100,000 bathrooms a year.

Tried and tested in Norway for almost 70 years, Fibo was the first to make the ‘click’ system for walls. The smooth and strong surface can withstand both direct water spray and large temperature fluctuations. Quick to dry, easy to clean, and simple to install. You are guaranteed a result that will last for many years.

Did you know?

Research has revealed that Fibo’s leading waterproof wall panel system has a carbon footprint that is 37% lower than tiles when installed in a typical bathroom. This is in part due to Fibo sourcing their plywood from sustainable PEFC certified sources. So, when you choose Fibo wall panels you can be confident that you’re choosing the greener option and reducing your carbon impact. Plus, Fibo wall panel surfaces are all antibacterial so there’s no more cleaning mould and worrying about bacteria growing between tiles anymore. Why tile, when you can Fibo?

Designed and made in Norway
