THE ONE SERIES

CONDENSING WALL HUNG BOILERS

HOT WATER | HEATING | RENEWABLES
ariston.com/uk

INSIDE THE ONE SERIES:

XTRATECH™ HEAT EXCHANGER

Stainless steel construction with 142% wider waterways in a single coil design. Improved condensing surface and increased hydraulic performance.

ARISTON BRANDED COMPONENTS

For complete peace of mind.

CUSTOM SILENCER & INSULATED PANELS

Ensures quiet operation without compromising on performance.

HIGH EFFICIENCY MODULATING PUMP

Custom designed for perfect interaction with the boiler.

ULTRASAFE GLASS PANEL*

Scratch-proof, easy to clean and offering a modern hi-tech look.

ROBUST LIGHTWEIGHT CHASSIS

Provides excellent durability whilst being easy to wall mount.

CONTROL BOX

Protects the PCB and has colour coded connections for easy wiring.
IGNITION CONTROL SYSTEM**

Automatically detects the gas characteristics for guaranteed efficient performance.

BUILT-IN WI-FI AND TIMER PROGRAMMING**

To program the boiler through built-in controls or remotely via a smartphone, tablet or PC.

LARGE LCD DISPLAY AND TOUCH BUTTONS**

With full text and intuitive menu system.

MORE INTERNAL SPACE ENABLES EASY MAINTENANCE

FULLY COMPATIBLE WITH EXISTING ARISTON ACCESSORIES

CONNECTIONS ARE UNCHANGED TO ALLOW EASY RETROFITTING

RANGE OF CONTROLS AVAILABLE FOR FULL CONTROL WHEREVER YOU ARE

* Alteas only **Alteas & Genus only

FOUR TECHNOLOGIES FOR AN EXCLUSIVE PERFORMANCE.

XTRATECH™ HEAT EXCHANGER: DURABLE HEATING.

ONE condensing technology ensures **reliable performance** for the best comfort at home, **every day**. With the design of the new heat exchanger, the pipes are wider, resulting in an improved water flow and enhanced heating performance.

ABSOLUTE EFFICIENCY: A+ ENERGY CLASS.

The innovative **Ignition System** delivers consistent heating performance, advanced control and safety in any environment. Plus, ONE condensing heating technology and thermo regulation accessories enhance efficiency, while achieving performances up to **A+ Energy Class**.

FULL CONTROL, FULL COMFORT.

These boilers boast a unique set of innovative **smart functions for simple and stable temperature setting** and lots of customisation options to satisfy all end user needs. Features include the **'Auto' & 'Comfort' functions** as well as **in-built timer-programming**.

ALWAYS CONNECTED WITH ARISTON NET.

A new generation of connectivity which is easy to set-up, simple to manage and always at the end user's fingertips for total control of the heating system, leading to **annual energy savings** and ensuring **technical support is always on**.*

EASY MAINTENANCE

All boilers have:

Frontal access to main components, easy diagnostics and soft opening for the control box.

SMART CONNECTIVITY. THE APP THAT MAKES OUR BOILERS SMART.

ARISTON NET

COMPLETE CONTROL AT ANY TIME, FROM ANY LOCATION.

Managing and controlling ONE Series boilers from anywhere has never been so easy: end users can warm their home remotely from a smartphone or tablet, using our intuitive Ariston Net app or via any internet browser.

SAVING ENERGY AND IMPROVING EFFICIENCY.

Ariston Net monitors energy consumption, providing users with a series of recommendations and management tips to aid efficiency and help reduce fuel bills. A monthly usage report provides the user with individual information on the most efficient boiler settings to meet their needs.

TECHNICAL SUPPORT ALWAYS ON*.

As Ariston Net has the ability to monitor boilers remotely, the app is able to advise users in the event of any problem occurring to the system. By activating the remote diagnostic service, many issues can be recognised and solved by after-sales companies remotely.

AMAZON ALEXA INTEGRATION.

End users can manage their personal comfort not only at the touch of a button, but also with the sound of their voice!** Ariston Net's integration with Amazon Alexa enables control of all connected heating products directly. Just say the word!
