

SPIROTRAP® MB3 SPIROTRAP® MBL

Fast, easy removal of the smallest dirt particles with unique magnetic field booster technology

Industry-leading
20 year guarantee

Best-in-class
first pass separation

Energy saving

Quick and easy;
universal installation (360°)

Sturdy brass
housing

Quick and easy
cleaning

SPIROTRAP® MB3 SPIROTRAP® MBL

SpiroTrap MB3 and Spirotrap MBL are highly effective, powerful dirt separators for removing both magnetic and non-magnetic dirt particles from the system water. Available in connection sizes 22 mm, 28 mm, ¾", 1", 1¼", 1½" and 2".

Today's highly energy-efficient heating and cooling systems offer optimal performance with dirt-free water. In untreated systems, dirt can cumulate in multiple places throughout the system. Studies and practical experience show magnetite in particular leads to decreased energy efficiency and therefore higher energy costs. Ensuring quick and efficient dirt removal is vital.

MAXIMISING PERFORMANCE, PROTECTING COMPONENTS

The unique magnetic field booster technology guarantees unprecedented fast, optimal dirt separation. Even the smallest magnetite particles are removed, maximising system performance as well as protecting costly system components. Thanks to the ingenious design, collected dirt can be removed quickly and easily.

The sturdy brass SpiroTrap MB3 and SpiroTrap MBL are equipped with a swivel connection making it very easy to install and suitable for horizontal, vertical and even diagonal pipes.

*SpiroTrap MB3 with Insulation**

For larger applications, we recommend our SpiroTrap Magnet.

Kiwa GASTEC has objectively proven that Spirotech's SpiroTrap MB3, which maximises magnetite removal, can bring up to 7.4% energy savings.

Both SpiroTrap MB3 and SpiroTrap MBL are quick and easy to clean with minimal mess: simply pull down the clean external magnet, open the drain valve and dirt collected in the SpiroTrap runs into a collection bucket.

SPIROTRAP® MB3 + SPIROTRAP® MBL particle and dirt separator, brass, universal connection
